DETAILED ACTION

This office action is in response to the amendment filed June 8, 2006. In accordance with the amendment, claims 1-3 and 5 have been amended, while new claim 7 has been added. The amendments to the specification and abstract have been acknowledged.

Claims 1-7 are pending.

Drawings

1. The drawings were received on June 8, 2006. These drawings are acknowledged.

Allowable Subject Matter

2. Claims 1-7 are allowed. The following is an examiner's statement of reasons for allowance: the closest prior art of record (Kim et al. U.S.P. No. 5,708,746) does not teach or reasonably suggest the specific claim limitations that were added by the amendment filed June 8, 2006. Kim et al. '746 does not teach or reasonably suggest a joint element having two foldable members joined and arranged for bare fibers as claimed (independent claim 1, dependent claims 3-5 and 7). Kim et al. '746 does not teach or reasonably suggest each of the buffer members having tongue shaped members in the particular arrangement in combination with 1st and 2nd projecting members for movement as such (independent claim 2, dependent claim 6).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

3. Applicant's arguments, see amendment with remarks, filed June 8, 2006 (in particular Applicant's remarks on pages 10-12), with respect to the rejections to Kim et al. '746 in view of the new claim amendments to independent claims 1 and 2, have been fully considered and are persuasive. The rejections of claims 1-6 to Kim et al. '746 have been withdrawn.
